We are: - candidates for the Brussels CLP on List 9
- Contractual Agents
from New Member States

We stand for the colleagues who:

- are treated less equally than others,
- are the most vulnerable ones in this time of crises,
- are under-represented in the CLP,
- hope to survive long enough to see more fairness in the EU Institutions.

We put our efforts for:

- **the right for the Contractual Agents to participate in the internal competitions and thus make them equal with Officials and Temporary Agents;**
- **the Contractual Agents to be treated as who they really are internal and not external personnel;**
- **women to be more present at all levels of the Institutions, not only between CAs in majority;**
- **the Contractual Agents to be included in the CDR system;**
- **the voluntary mobility for +50 generation;**
- **the equal pay and rights for equal work;**
- **the improvement of the European School system.**
